

For your video recording, please include the following:

1. A piano-accompanied solo of your own choice, preferably *sostenuto* (*legato* or smooth). A hymn or folk song is also appropriate. The purpose of this is to hear you on music with which you feel comfortable and that will demonstrate your vocal ability.

2. Please include on your video recording a few vocalizes (or warm-up exercises) that will show your comfortable high range and low range.
